

PAÚL TERÁN

Software / Cloud / DevSecOps Engineer

Quito, Ecuador • litemeilateran@outlook.com • +593 983271650 • linkedin.com/in/devpaulteran • paul-teran.com

PROFESSIONAL PROFILE

Software / Cloud Engineer with 6+ years of experience designing, developing, and deploying web, mobile, and backend solutions across banking, insurance, education, food services, and digital platforms. Hybrid Full Stack, Cloud, and DevSecOps profile focused on automation, CI/CD, observability, early security controls, AI-assisted development, data, and MLOps practices.

PROFESSIONAL EXPERIENCE

Grupo KFC

DevSecOps Engineer

Quito, Ecuador

Jun 2025 - Jun 2026

- Automated, deployed, and monitored transactional systems for KFC kiosks and Dragontail at national and regional scale.
- Embedded STDD practices and early security controls to strengthen the software development lifecycle and operational support.
- Coordinated deployments, monitoring, and operational continuity with technical and business teams for critical platforms.

TIPTI S.A.

Cloud Engineer

Quito, Ecuador

Mar 2025 - May 2025

- Administered GCP cloud infrastructure for mobile applications and backend services.
- Implemented deployment automation for applications and services, reducing manual intervention in operational processes.
- Monitored system performance, health, and security to ensure platform stability and observability.

DEUNA APP

Frontend Developer

Quito, Ecuador

Feb 2023 - Dec 2024

- Developed and validated mobile and web systems for the payments core across monolithic, microservices, and microfrontend architectures.
- Integrated frontend components with backend services, QA workflows, and product requirements to ensure quality and maintainability.
- Owned the launch of the Bill Payments feature, coordinating UI adjustments, integration, and quality control.

Seguros BMI del Ecuador

Level 1 Application Support Analyst

Quito, Ecuador

Apr 2022 - Feb 2023

- Administered users and provided functional support in Salesforce Platform, CRM, Service Cloud, and Sales Cloud.
- Automated internal processes with Salesforce Flow and Process Builder to optimize operational workflows.
- Built dynamic reports and dashboards with Tableau and Salesforce Analytics for business data tracking.
- Configured custom workflows using JSForce on the frontend and Apex on the backend.

Kushki

Junior Software Developer

Quito, Ecuador

Nov 2021 - Mar 2022

- Built backend applications with Node.js, Go, and serverless architecture.
- Implemented Android mobile features with Kotlin and ETL scripts with Scala on AWS services.

Instituto Superior Tecnológico Cruz Roja Ecuatoriana - ISTCRE

Systems Assistant

Quito, Ecuador

Dec 2019 - Dec 2020

- Developed the institutional academic journal, international course sales portal, forms, and internal systems.
- Provided Level 1 and 2 support for Moodle, Edmodo, and Microsoft Teams in academic environments.

EDUCATION

Universidad Tecnológica ISRAEL

Computer Engineering

Quito, Ecuador

In progress

Instituto Superior Tecnológico de Turismo y Patrimonio Yavirac

Higher Technology Degree in Software Development

Quito, Ecuador

2017 - 2021

Unidad Educativa Técnica Vida Nueva

Technical High School Diploma in Informatics

Quito, Ecuador

2011 - 2016

TECHNICAL SKILLS

- Frontend & Mobile: React.js, Next.js, Vite, Angular, Vue.js, React Native, Flutter, TypeScript, JavaScript, Tailwind CSS, atomic design.
- Backend & APIs: Laravel/PHP, Node.js, NestJS, Express, Python/FastAPI, Go, REST, GraphQL, webhooks, gRPC, JWT/OAuth2.
- Databases & Storage: MySQL, PostgreSQL, SQL Server, Firebase, MongoDB, Cosmos DB, Redis, Azure Blob Storage, AWS S3.
- Cloud & DevOps: Azure App Service, AKS, Azure SQL, ACR, Azure Monitor, Application Insights, Microsoft Fabric, Databricks, AWS EC2/S3/RDS/Amplify, GCP, Docker, Kubernetes, Terraform, Jenkins, GitHub Actions, GitLab CI/CD, Bitbucket Pipelines.
- Testing, Security & Observability: Jest, Testing Library, Cypress, Detox, SonarQube, Snyk, OWASP Dependency-Check, Trivy, OWASP ZAP, Dynatrace, TDD, BDD, STDD.
- Applied AI & Automation: Cursor AI, ChatGPT, OpenAI API, Codex, Perplexity, Gemini CLI, Antigravity, Notion AI, n8n, MCP, and AI agents for code analysis, documentation, debugging, and DevOps support.
- Architecture: MVC, layered architecture, microservices, microfrontends, clean code, client-server architecture, design patterns, CI/CD, and cloud-native practices.

LEADERSHIP & ACTIVITIES

- Active participation in technology communities such as Tribu Tech Latam and Google Developer Groups Ecuador.
- Published technical articles and guides on LinkedIn about software development, cloud, and technology best practices.
- Professional competencies: leadership, resilience, decision-making, motivation, and collaboration with multidisciplinary teams.
